### DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5,7,13-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Boschen, Jr.

Boschen, Jr. discloses the claimed invention, including a hull having an external surface with a curved channel formed therein. A sliding carriage is disposed within the channel, and an engagement member is selectively positioned between first and second positions as claimed (col. 4, lines 48-57).

Re “submersible vehicle”, such is a statement of intended use, carrying little to no weight in the claim, furthermore, any hull is adapted to be submersible, i.e. sunk.

Re “tow point”, such fails to define any specific structure and/or arrangement so as to define over the fairlead.

3. Claims 6,8-12,19,20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Mason and Bielstein disclose hull mounted channels.
